

# Fellsway East at Highland Avenue

## Intersection Improvements

### Project No. P19-3314-C1A

## TWO-WEEK LOOK-AHEAD

November 11 to 25, 2019

(No work on Veteran's Day, Nov. 11)

- Placing a new catch basin between Highland Ave and Fellsway East heading towards Stoneham and a connection to the catch basin that was installed this week.
- Paving the area that was excavated for our first catch basin and pipe installation at Highland and Fellsway East at the corner.
- Installation of underground wires by National Grid Contractors.
- A continuation of drainage work, including trenching, plating, and pipe connections to existing catch basins. This work may include paving dependent on any ledge discovery and weather.

(Note: Digging trenches will require some lane closures and an occasional detour, but we will do our best to start this work after rush hour.)

Markings show future locations of conduit and traffic signal poles

The project will substantially improve safety for all users

The new utility pole (left) has already been installed. All utilities on the pole on the oval (right) will be moved to the new one

Questions or concerns about the project should be directed to DCR Resident Engineer Jim Caputo ([james.caputo@mass.gov](mailto:james.caputo@mass.gov)). In case of an emergency, contact 911 or DCR's 24/7 emergency hotline at the Massachusetts Emergency Management Agency at 508-820-1428. To subscribe to a project-related listserv, contact DCR's Office of Community Relations at [Mass.Parks@mass.gov](mailto:Mass.Parks@mass.gov) or 617-626-4973.
