

How to install Silverlight for MAC OSX

These instructions are for customers running the **Mac OSX** Operating System & using **Safari** as your web browser.

Installation Instructions

1. Open **Safari**.
2. Download Silverlight from <https://www.microsoft.com/getsilverlight/Get-Started/Install/Default.aspx>
3. Click on Install for Macintosh
 - a) If you have an older version of Silverlight running on your computer, you will be told the version currently running.
 - b) You will be asked to upgrade to the latest version of Silverlight.
4. Click **Download Now**.
5. Click the Silverlight Link.
6. Click **Continue**.

7. Click **Continue**
8. Click **Continue**
9. Click **Agree** to *Accept the Silverlight License Agreement*.

10. Select your **Macintosh HD** & click **Continue**.

11. Click **Install**.

12. If requested, enter your Name & Password for the computer.

- **NOTE:** This is NOT your PAWS ID & Password. This is the Administrator of the computer.

13. Click **OK**.

14. Click **Close** when the Install Succeeded box appears.

Installation completed successfully
