## **IMPORTANT MESSAGE TO PROPERTY OWNERS ON THE REMOVAL OF LEAD WATER SERVICES**

The City of Malden has recently passed a City Ordinance requiring property owners to remove lead water services. Specifically, Section 9.43 requires that a property owner must certify that the water supply to their property is through lead-free water lines when one of the following occurs:

- The property is being sold;
- When applying for a building permit with a project value over \$30,000; or
- At the time of the transfer of a tenant in an owner, non-occupied multi-family property.

Any property owner that anticipates a sale or the need of a building permit in the near future is encouraged to contact the Engineering Department so as to not cause a delay in their transaction.

There is a procedure in place for property owners to follow when obtaining the above-mentioned required certification. This information can be found at [cityofmalden.org/lead](http://cityofmalden.org/lead) or by emailing [leadinfo@cityofmalden.org](mailto:leadinfo@cityofmalden.org). You may also contact the Malden Engineering Department at 781-397-7040 with any questions.
